Some Special Bargains

Mixed Tulip Bulbs

Do you like many colors blended into a one-bed picture?

Do you want a planting of Tulips from which to cut big bouquets of mixed colors? Do you want to save money?

If you want these things here is your chance. Our mixed Tulip collections contain many kinds, all of them good, a well balanced selection of colors. First garden size bulbs at 50 for \$2.25 or 100 for \$4.00, or 500 for \$18.00—and we pay transportation. The second garden size—fine for naturalizing for several years—at 25 per cent less.

Mixed Bulbous Iris

Dutch, Spanish and English, several kinds of each, 50 for \$1.50; 100 for \$2.50, postpaid.

Colchicum—Fall Crocus

Bloom in August even without soil, throwing up many crocus-like flowers from the top of the bulb. Color is lavender-pink of delicate shading. Plant about five inches deep and next spring they will throw up broad leaves which die down in June and are followed by the flowers. Fine for naturalizing. Large bulbs 25c each or six for \$1.00.

Our Spring Catalog

Lists many varieties of Gladiolus, a good selection of new and standard perennials, and it tries to be helpful with flower garden problems. It is free for the asking.

KAYLOR NURSERIES

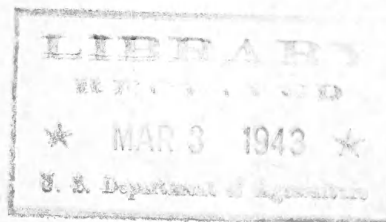

LAKEWOOD, WASHINGTON

Catalog No. 30—Fall, 1942

How to Reach Our Nursery

Colorful Tulips

With close to twenty years experience and study of Tulip bulb production behind us we feel that we have learned a few of the "know hows" of growing, harvesting and shipping high quality, customer-satisfying stock of this most beautiful of spring flowers. The truth of this is found in the fact that a few trial shipments, made last season to middle western dealers, were so favorably received that our this year's crop was sold at that time. One dealer wrote he had never seen finer bulbs; another, "You certainly know how to grow fine Tulips and we hope you can supply our needs next year."

Our location in the Puget Sound country, where all kinds of bulbs find conditions that make them happy, is one cause for this good record. Another is the fact that there are no assembly-line-machine methods used by us. Bulbs are handled as carefully as tho they were tree-ripened peaches. We are not afraid to tell our customers, "If you are not satisfied, send 'em back and get your money."

Despite the fact that dealers and greenhouse growers want every bulb we have for sale, we still hold to our original aim in establishing this business — high quality stock sold direct to the consumer at a fair price. You, our retail customer get first consideration. But please send your orders early and here's a tip. Unpack all bulbs as soon as received. If you cannot plant at once, spread them out in a cool, dry place and be sure they are in the **dark**. Sunlight, even daylight, is injurious to most bulbs. Keep 'em dark.

The men and women who handle the U. S. mails are trustworthy and can be depended upon to deliver the goods, so save your tires by ordering by mail. Cash with order, please, and we will pay the postage on all orders of \$1.25 or more. If for less than \$1.25 add 25c extra. Washington customers be sure and add sales tax.

Sizes and Prices

Tulip bulbs vary in size according to variety. There are several methods used in measuring sizes. Our first garden size bulbs are one and one-fourth inches, or larger, in diameter, the best size for garden use. Prices quoted are for this size. Second garden size, one inch or larger, are good for garden planting and sell for 25 per cent less than first size. Large forcing size, for use in pots and pans, are one and one-half inch or larger and sell at 25 per cent higher than first garden size. Quantity prices. Fifty bulbs of one kind at four and one-half times the per ten price and 100 bulbs of one kind at eight times that price. 3—20c means three bulbs for 20c; 10—60c means ten bulbs for 60c. Our fields are rogued every year to

make sure all varieties are true to name and that all variegated (diseased) plants are destroyed. You can plant our bulbs with assurance that your color scheme will be right.

D. means Darwin, B. Breeder and C. Cottage. Darwins and Breeders are very tall kinds. Cottage sorts are not so tall and bloom a little later. Here is the list:

Allard Pierson—D. Earliest red Darwin, very deep color. 3—20c; 10—60c.

Afterglow—D. Delicately blended deep rose, salmon and orange. Orange edging, 3—20c; 10—60c.

Bartagon—D. Fiery crimson. White base edged blue. One of the standards. 3—20c; 10—60c.

Bronze Queen—B. Buff, bronze and pink blended. A fine color combination. 3—20c; 10—60c.

Baronne de la Tonnaye—D. Deep rose pink with purplish tints and shadings. 3—20c; 10—60c.

Bacchus—B. Rich, deep violet-blue to purple. One of the big ones. 3—30c; 10—90c.

Centenaire—D. Too deep for pink, too light for rose but a beauty. 3—20c; 10—60c.

Clara Butt—D. The nearest to true pink. Edgings lighter, 3—20c; 10—60c.

City of Haarlem—D. Always sell out this big bright red. 3—30c; 10—90c.

Cardinal Manning—B. Purplish rosy bronze or deep lavender. Large, late. 3—25c; 10—75c.

Dream—D. Heliotrope, inside deep violet. Early and large. 3—20c; 10—60c.

Dom Pedro—B. Coffee brown and maroon. Rich color. Beautiful shape. 3—30c; 10—90c.

Duke of Wellington—D. New tall white. Large and fine. 3—35c; 10—\$1.10.

Ellen Wilmot—C. Long, pointed pale yellow petals. 3—20c; 10—60c.

Europe—D. Fire red with large white base. Brilliant coloring. 3—20c; 10—60c.

Farncombe Sanders—D. Large flower in deep rose shade. 3—20c; 10—60c.

Fantasy-Parrot. Feathered pink, splashed green on petals. 3—40c; 10—\$1.25.

Glare of the Garden—C. What it lacks in size it gives in glaring red. 3—20c; 10—60c.

Grenadier—C. Fine orange, yellow and red combination. 3—20c; 10—60c.

Inglescombe Yellow—C. Best medium yellow, turns red with age. 3—15c; 10—50c.

Lord Conravon-Triumph. Early large pink, white edgings. 3—20c; 10—60c.

La Tulip Norie—D. The Tulip of Night, dark red, almost black. 3—20c; 10—60c.

Louis XIV—B. Deep violet, brown and bronze, very popular. 2—20c; 10—85c.

Mrs. Moon—C. Golden pointed petals, waxy texture, fragrant. 3—20c; 10—60c.

For Next Spring's Garden Glamour

Moonlight—C. Creamy yellow, long, pointed petals opening star-like. 2—15c; 10—65c.

Ouida—D. Very large, glowing crimson-scarlet, a red you must have. 2—15c; 10—65c.

Princess Elizabeth—D. About the best of the light lavender pinks. 3—20c; 10—60c.

Prince of Orange—B. Orange and terra cotta. Medium size, charming fragrance. 2—15c; 10—65c.

Pride of Haarlem—D. One of the largest. Rose-carmine. 3—20c; 10—60c.

Picotee, Maiden's Blush—C. Opens white, edges take on pink tone. 3—20c; 10—60c.

Plutarcus—B. Beautiful blending of gold and greenish-bronze, large. 2—15c; 10—65c.

Presdt. Taft—D. About the largest deep crimson-maroon. 2—20c; 10—90c.

Prince of the Netherlands—D. Very large pink, lavender shadings. 2—15c; 10—65c.

Sieraad Van Flora—D. Largest of the rose lavenders, early. 3—20c; 10—60c.

Valentine—B. Earliest Darwin we have. Large purple. 3—20c; 10—60c.

William Pitt—D. Best forcer among the deep reds. Always in demand. 3—20c; 10—60c.

White Queen—D. White, with lavender shadows as it ages. 3—20c; 10—60c.

Feu Brilliant—D. Brilliant fire. Stock scarce. 2—20c; 10—90c.

Gold Crown—C. Low growing golden with red-tipped petals. Early. 3—20c; 10—60c.

Hyacinth Bulbs

We have been propagating these for years, otherwise could not supply them, as stock is very hard to obtain. The bulbs we offer are the right size for out-door planting and will produce fine bloom next spring. Forcing sizes for indoor culture can be supplied in a few varieties at one-third higher price. Prices, any variety, 35c each, or ten bulbs of one or more kinds, at \$3. Mixed, ten for \$2.75.

Distinction, lilac, violet and ruby. **Grand Maitre**, very deep blue. **Gertrude**, deep carmine-rose. **Lady Derby**, pure rose-pink. **Queen of Blues**, light blue. **King of Blues**, deep blue. **L'Innocense**, pure white. **Yellow Hammer**, creamy yellow. **La Victory**, crimson. **Roman**, single blue.

Plume Hyacinths. A not well enough known variety. Plumes about eight inches tall, lavender, and they look like they were made of spun glass twisted and curled. Five for 25c.

Scilla Campanulata—The wood Hyacinth. Also called bulb bluebells. Many pendant six-petaled bells on foot high spikes in May. Fine for naturalizing. Blue and white mixed. Five for 25; 10 for 40c.

Bulbous Iris

These follow the Tulips in blooming time and fill in the garden picture until the Peonies open early in June. They have no enemies and may be left undisturbed in the garden for several years.

Golden Glory—Dutch. Medium tall of fine golden color. Five for 25c; ten for 40c.

Imperator—Dutch. Very deep and brilliant blue on tall stems. Late bloomer. Five for 20c; 10 for 40c.

King of Blues—Spanish. Still later than Imperator and about same fine blue color. Same price as Imperator.

Mt. Blanc—English. White, wide open flowers on tall stems. Late bloomer. Two for 15c; 10 for 70c.

Fascination—English. A lavender edition of Mt. Blanc at the same price.

Queen of the Blues—English. Not quite so tall as Mt. Blanc but a fine light blue color at same price.

Peonies

Peonies moved to our present location three years ago are now ready for dividing and we are glad to again offer three to five eye roots of these ever popular flowers to our customers. Plant from September to April in deeply worked soil and after the second year they will furnish ever increasing numbers of fine flowers over a long period of years. We supply only well balanced roots and all our varieties are good performers.

Avalanche. Globular snow white, some petals tipped red. Late. 50c each.

Cherry Hill. Semi-double garnet red on tall stems. Mid-season. 40c each.

Edulis Superba. Large, loosely-built crowns on tall stems in a dark pink. Early. 40c each.

Eugene Bigot. Deep red of good size and blooming quite late, it extends the season of Peony bloom. 40c each.

Festiva Maxima. Perhaps most popular of low priced white kinds. Large flowers with a touch of red on center petals. 40c each.

Karl Rosefield. Mid-season ball type flower in velvety deep red. One of the best. 50c each.

Mme. Ducl. Big bomb type in medium pink coming late mid-season. 40c each.

Mons. Jules Elie. Early globular-crown type, and perhaps the most popular of pink sorts. 40c each.

Officinalis Rubra Plena. The big deep red that is always welcome because it is the first to bloom. 40c each.

PLANT TREES AND SHRUBS THIS FALL AND WINTER

• SAVE MONEY •

Most of our shrubs and trees have been transplanted several times to give them the well balanced root system so valuable in transplanting. Prices quoted are at the nursery. Plants to be sent by post or express will be sent charges collect. No charge for packing.

American Bittersweet. Climbing woody vine with orange berries. 8 to 12-inch plants, 50c.

Andora Juniper. Low-growing, spreading, blue-green evergreen that is fine for walls or other ground uses. 8 to 12 inch bushes. 50c.

Azaleas — Schlippenbachii. The Royal Azalea. Large light pink flowers early in the spring. We have a few 15-year-old specimen bushes at \$3.00 each.

Box Barberry. Evergreen, low growing border plant in very deep green with yellow flowers, 25c and 50c.

Boxwood. Slow growing, small leaved evergreen, 50c. We have a few specimen bushes.

Bridalwreath. Loads of white flowers in June. 18-inch and up bushes, 50c.

Cotoneaster, Simonsii. The tall growing kind that produces such large crops of red berries for winter. Semi-evergreen. 25c and 50c plants.

Cotoneaster, Horizontalis. Spreading. Heavy crops of red berries. 25c and 50c.

Buddlea, Dubonnet. A new color in Butterfly bushes. Same strong grower as the other varieties but of the same color as the Dubonnet wine—a wine purple that becomes almost red under artificial light. 50c.

Buddlea, Charming. A pink shade. Flowers not quite so closely built as Dubonnet. 50c.

Forsythia. Profuse bloomer coming very early in the spring with its many golden flowers. 18-inch plants, 50c.

Globe Arborvitae. Thick layers of bright green leaves in a compact globe shaped dwarf evergreen bush. Fifteen inch bushes, 75c.

Golden Privet. Semi-evergreen, golden foliage. Bushes at 25c and 50c each.

Golden Retinospora. Dwarf bushes of dense, finely cut golden foliage. It is evergreen. Foot high bushes 50c.

Helianthemum, Rock Rose. Low growing woody evergreen plants that are covered with many small rose-like pink flowers over a long summer period. 25c and 50c sizes.

Hydrangea. Many very large balls of deep blue flowers on three-foot high bushy plants. Large light green leaves make it attractive even when not in bloom. Strong plants at 75c. \$1.50 for extra large specimens.

Hybrid Heath, or Winter Heather. Hardy dwarf evergreen plant of fine-cut foliage. From Christmas until early summer this beautiful border plant is covered with sprays of dainty lavender-pink flowers. 8- to 12-inch bushes, 50c.

Kerria, Globe Flower. Fully double ball-like golden flowers on a bushy plant that will grow to about eight feet. Blooms all summer. Plants in 25c and 50c sizes.

Kolwitzia, Beautybush. Grows into an eight-foot specimen and produces many small snapdragon-like cream-pink flowers in June. 18-inch plants, 75c and up.

Lavender. The bushy shrubs whose spire-like blossoms are dried and used for scenting clothes closets. Foot high plants 25c.

Mahonia, Hollygrape. Evergreen, growing to eight feet high with golden flowers in summer followed by purple grapes. 25c. Some larger specimens at up to \$1.00.

RHODODENDRON SPECIAL

Big two to four-foot specimen bushes with buds ready to open this year. Hybrid seedlings in shades from light pink to rose-red and purple. Heavy plants from \$2.00 each up to close out present stocks. Get that Rhody now and save.

Tulip Tree. Grows into a very large shade tree. Large, lobed bluish-green foliage. In May and June there are many large tulip-shaped greenish-yellow flowers which are followed by long cone-like fruits. Two-foot trees, 50c.

Remember to send sales tax.
